# Agenda

- Purpose and Theoretical background
- Methods and companies' profile
- Findings and Conclusion

# **Purpose and Theoretical background**

reen,

**NMENTAL** INDUSTRIES

### Purpose

- Chinese OFDI to Germany
- Prevailing motivations, strategic intent, location choices, entry modes (Buckley et al., 2007; Kolstad and Wiig, 2012)
- Industry level: environmental, RE (Wang, 2012)

### **Theoretical background**

- Chinese firms' global expansion, IB (Alon et al., 2012; Deng, 2012)
- Chinese firms' integration in Europe (Curran, 2015)

## Methods and companies' profiles

Multiple case study - Descriptive analysis (Eisenhardt 1989; Yin, 2003, 2013)

Data collection: fieldwork Spring/Summer 2015

# Findings and Conclusion: environmental sector

#### Industry-specific results: from China to Germany

- Market-seeking, strategic asset-seeking:
  - to improve production process through skill and know-how acquisition (traditional motives) (Amighini et al., 2011)
- Labor cost and fiscal incentives (not relevant motives)
- Entry mode choices:
  - driven by legal factors and previous contact > Greenfield prevail

### Findings and Conclusion: environmental sector

#### **Company-specific results**
